F E A T U R E S

- **Manufactured In The U.S.A.**
- **Designed For Easy Maintenance**
- **Replacement Parts Available For Next Day Delivery**
- **Unique Design Allows Simultaneous Access To Two Types Of Tape**
- **Carrying Handle For Easy Transport**
- **Spring-Loaded Splicing Tape Dispenser**
- **Non-Skid, Non-Scratch Rubber Feet**
- **Weighs 8 Pounds**
- **Heavy-Duty Construction**

The SP-35 Film Splicer from Strong International is durable and designed for quick maintenance. All replacement parts are available for next day delivery.

Tape splicing and loading is made easy by a spring-loaded tape dispenser and non-skid, non-scratch rubber feet are a standard feature on the SP-35, not found on other units.

A self contained unit, the 8 pound SP-35 has a non-breakable cast aluminum operation handle with an additional carrying handle for easy transport.
